

## EAST TIMOR

### ABOUT EAST TIMOR VACCINATIONS

Also known as Timor-Leste, East Timor occupies the eastern side of the island of Timor in the Timor Sea. While mountain regions in the interior are cooler, the country has two seasons, rainy (December to March) and dry (May to November).

#### OVERALL RISK

High Risk - Preventable disease is much more common than in Australia. Consult a Travelvax clinic for your specific risk.

#### MALARIA RISK

Malaria is present throughout country. Anti-malarial medications recommended. Type of malaria tablets will vary according to itinerary, length of stay and needs to be discussed with a medical practitioner.

### VACCINE PREVENTABLE DISEASES

#### YELLOW FEVER

No vaccination certificate is required and no risk to travellers.

#### COVID-19

For the most up to date requirements for entry into Australia, go to [Smartraveller](#).

Please click this [COVID-19 Travel Regulations Map](#) (IATA) to view the latest East Timor COVID travel requirements.

#### HEPATITIS A

Risk of Hepatitis A infection is high for all travellers, vaccination recommended.

#### HEPATITIS B

High presence of Hepatitis B in local population. Vaccination would be recommended. Consult a medical practitioner for your specific risk.

#### TYPHOID

Risk of Typhoid is high for all travellers, vaccination recommended.

## INFLUENZA

Year round risk present. Most common vaccine preventable illness in travellers. Vaccine recommended, effective for 1 year.

## RABIES

Disease present. Recommendation for vaccination will depend on specific itinerary and activities planned. Generally rabies vaccination is advised for high risk individuals such as veterinarians or animal handlers, cavers. Additionally for higher risk travellers who plan: extended periods outdoors, rural travel, adventurous activities including bicycling; also expats or long-term travellers to endemic regions and children (risk of more severe or risk-prone bites and may not report contact at all).

## JAPANESE ENCEPHALITIS

Disease present. Seasonal risk will vary by country. Whether vaccinations will be recommended will depend on itinerary, length of stay, type of travel etc and needs to be discussed with a medical practitioner. Risk is highest around pig farms and in agricultural areas. Mosquito avoidance measures are highly recommended all year round. Consult a medical practitioner for your specific risk, particularly if travelling during the wet season.

## POLIO

No risk to travellers.

## TICKBORNE ENCEPHALITIS

No risk to travellers.

## MENINGOCOCCAL MENINGITIS

Low risk to travellers.

## CHOLERA

No risk to travellers.

## OTHER DISEASES

### TRAVELLERS DIARRHOEA

High risk. Travellers' Diarrhoea affects 20-60% of overseas travellers, food and water precautions are essential. Self-treatment medications may be recommended.

### INSECT-BORNE DISEASES

Diseases such as [Dengue](#), [Chikungunya](#), [Zika](#) may be present. Seasonal risk will vary by country. Whether preventive measures will be recommended will depend on itinerary, length of stay, type of travel etc. and needs to be discussed with a medical practitioner. For those countries with disease present, risk is highest in urban and semi-urban areas, but may also occur in rural areas; [insect avoidance measures](#) are highly recommended all year round. Travelvax believes that the best defence is to understand their habits, dress properly and use an [effective insect repellent](#) in the correct manner. Consult a medical practitioner for your specific risk.

## SCHISTOSOMIASIS

No risk to travellers.

## STIs

Low incidence of sexually transmitted and blood-borne diseases. Safe sex and needle precautions should be followed by all travellers.

## ALTITUDE

Altitude illness is a risk to travellers ascending higher than 2000 meters. Preventative medication is available. Consult a medical practitioner if ascending to 2000 metres or above.

## ADDITIONAL INFORMATION

### PERSONAL SAFETY

In order to check before and during travel for any high-risk areas visit the Smartraveller website. Avoid unnecessary displays of wealth or valuables and minimise the amounts of cash carried. Keep secure records of passport/credit card/licence numbers. For more safety tips visit: [www.smartraveller.gov.au](http://www.smartraveller.gov.au).

### MEDICAL CARE

Comprehensive medical facilities available only in the major population centres and/or specific private clinics. Sterile surgical products (syringes/needles/sutures) are not always available. Check for any contacts supplied by your emergency assistance organisation (nominated by your travel insurer) or with IAMAT (International Association of Medical Assistance for Travellers).

### FIRST AID KITS & ACCESSORIES

Always carry an [advanced first aid kit](#), including needles and syringes (shortages of sterile equipment are common). A prescription kit (containing treatments for travellers' diarrhoea) is essential. A [mosquito net](#) and [insect repellent](#) (containing DEET, Citriodiol or Picaridin) are highly recommended, even if anti-malarials are taken.
